H. R. COBURN'S

OIL WORKS,

ESTABLISHED 1842.

H. R. COBURN'S TALLOW OIL.

This Oil has quite recently been introduced, and its great body and extensive gravity, a lasting and wearing value to that with a much greater (sperm oil) is unequaled by any. It is the high-test oil in use, being so thin in its nature in water, it will correct with moist oil. It is like cream in the skim milk. Entire absence of gummy matter, keep any machinery cool under any rate of speed, as the different parts thoroughly and efficiently oiled.

This Oil is elegant in use with engineers, who say it is the only oil that will stay on steam cylinders and Lighthouses, Signal Lights, Locomotive Head Lights, and the like, it will give a reliable and brilliant light, and do all that a perfect oil will. The Winter, Tallow Oil will stand thirty degrees Fahrenheit.

When quality and price are considered, this Oil will be found at the head of the list, as Goods without reference of factories are now in use and recommended. This oil has been in our stand for the last twelve years, in some of the first establishments of the country, to which reference will be given.

H. R. C. manufactures Winter Land Oil equal to any in the market. It is made with ice, and will stand cold weather.

H. R. COBURN'S EXTRA OIL.

Is made with care, from the best selected Lard Oil only. Every addition of this oil is an introduction to a host of good reputation and standing, and for years it has been a standard of first standard Oil for machinery and lamps. It will stand the cold, and the attention of grocers is particularly invited to it.

THE ELECTION IN MAINE

The People Awake—Freedom Triumphant

20,000 Majority

The result of the election in Maine is an unspeakably satisfactory one. The issue which had been forced upon the country by the repeal of the Missouri Compromise and the handing over of all the powers of the General Government to the extension of slavery was still most momentous while it has been added to the people since the inauguration of the present Administration. In the whole history of the political history of our country the encroachments of freedom or slavery have been so directly to the people—have the lines been so distinctly drawn—between the defenders of the Constitution and laws on the one hand and the violators of both on the other. Our opponents entered the campaign with a crusade against priests and petticoats, but the moral bearings of the issue, and the moral influences which have come up from the fireside and the altar have decided greatly an effecting the glorious result. The lesson to party politicians is truly sublime.

But we must pass from the general contemplation of the subject to matters of detail. We give below all the returns which have been received up to the hour of going to press and to the brilliant record of the doings of the freemen of Maine we refer our readers with the highest pleasure. Where all have done so well it is hard and almost useless to discriminate. The success is more than we dared expect even in our large confidence in the people, intelligence and virtue of the people. Our noble standard bearer in the contest, Hon. HANNIBAL HAMLIN, after declining in the Senate of the United States his position of opposition to Slavery extension and of his leave taking of the slavery hating democratic party, came home to the people. They have nobly vindicated his course and have borne him upon their uplifted palms to the highest office of the State, and to the proudest political position ever held by any man in Maine.

Mr Hamlin would increase in the same ratio over the vote of last year, that at has, on which we have already got it will reach 115 000. And if Hamlin's gain over Morrill's vote of last year continue until the whole come up upon the basis of 1 0 000 his whole number will be 68 00, provided also, that Wells vote and Patten's decrease in the same ratio that they have in those already received as compared with their vote last year—Wells whole number will fall to 44 000, and Patten's to 4 000 by the calculation the odd hundreds are disregarded for convenience.

Hamlin will at and 68 000 to 46 000—leaving him 20 000 majority.

This avalanche of the popular sentiment is equally potential in the election of the members of Congress so far as heard from, and also in the election of both branches of the Legislature and in the several county officers including Judge and Registers of Probate. The victory is overwhelming and entire.

Our sister States may well take courage from what we have accomplished here and go hopefully forward in the consummation of the revolution by placing John Charles Fremont in the Presidential chair and rescuing popular and executive power from the hands of the slave oligarchy—overturning anew our Government by putting an end to slavery aggression and slavery extension and in crushing out the usurpation by keeping the government true to its mission of freedom.

The subject Counties for the Republican Senatorial candidates are all elected by large majorities. Some of them in both the districts we desire at present precisely how much. We think no one of them can have much less than 1500 majority however.

The ticket was as follows

For Governors—William R Hersey Abner H Maxwell Cyrus Osk

Sheriff—Charles D Gilmore

Judge of Probate—John T Godfrey

Register of Probate—Joseph Bartlett

County Treasurer—Amos G Platt

County Commissioner—Cordan Dave

Members of Congress.

The Republicans have carried every member of Congress in Maine. The majority of Fessenden in the 4th district, which has been usually given by Democratic votes, will not be less than fifty. Fessenden's majority votes Washburn's majority in the district already reaches as far as I have heard from, a thousand, five hundred and will probably run up to six thousand.

An enthusiastic meeting of the Republicans will be held at the City Hall this evening to take into consideration the brutal violence and outrage committed on our brethren in Kansas and adopt measures for their relief. All Republicans are invited to attend.

Miss Vienna Augusta Stevens, accomplished graduate of the Girls High School in this city, gave a very interesting and [illegible] selected reading at the Town Hall on Thursday evening. We regret that we were prevented by [illegible] from attending, as we have attended them. There is what we said from what we shall attend. When Mr Sanborn's lecture is over we will give our authority, and we have no doubt they will meet with a hearty response.

We learn that the citizens of Vienna have invited our fellow citizen Hon Hannibal Hamlin and Hon Cornelius Washburn, Jr to address them on Saturday evening next on the political issues of the time. The invitation will undoubtedly be accepted.

Resignation and Appointment.—William Thompson, Esq has resigned his office of Route Agent between this city and Portland, and Mr J McDonald of Portland has been appointed to fill the vacancy. The compensation is $800.

The Legislature.

The Legislature will be very strongly Republican in both branches and the Senate probably will be entirely Republican. Not an opposition member is so far known to be elected.

Our editorial remarks and calculations in this issue were made upon the returns as we had them this evening. Additional returns however received during the night may be found in the tables.

A correspondent at Waterville states that Corneli Meshon Norridgewock Athens, and Solon Smithfield Mercer Starks, and Allerton together, were a Republican gain of eight hundred and sixty four votes.

One of our facetious friends says that Abe is a complete Quaker gun,—always sure not to go off.

An Old One.—Mr Solomon P Potter in cutting a stick of white oak timber, the other day opened upon a tree toad, that had, some how or other, come down to us from former generations, as Webster would say, [illegible] Over him had grown sixty seven grand rings of the oak, indicated that it had been his home for 67 years at least; unless he had existed without any nourishment for a while without food. At first life paid no attention to being turned out into the world again, but emerged in a perfectly torpid state, but after giving it the sun a few minutes, he started off hopping and jumping as fresh as a spring cyprian a new one.—*Newburyport Herald Sept 2*

A Error.—The telegraphic correspondent is mistaken in supposing the correspondent of the Tribune to have been killed at Lawrence. The Tribune itself says, "Our Mr Phillips recently left the Territory for a brief visit to the States, and on the day of the battle he was in this city. He is now returning, and will soon be at his post again in Kansas."

Inc dents of the Election

We failed to record fully yesterday, the incidents of the victory achieved in the election on Monday.

The greeting of Elijah L Hamlin, Esq brother of the Governor elect, was brilliantly illuminated, and the Young Men's Fremont Club, accompanied by a band of music, proceeded in procession to make a call upon Mr Hamlin. He was conducted in by a handsome manner and duly responded to a brilliant and effective speech.

They then proceeded to the residence of the Republican elect Gen Isaac Wheeler, where they were cordially received. Their next call was at the residence of Thomas N Egery, Esq Representative elect. Mr Egery appeared thankful from to the honor conferred upon him and for their great efforts in the noble cause of freedom and congratulated them upon the results of their labors. Senator elect A R Hamlin, Esq, was waited upon and the heart and house flown open to his friends. He addressed them in a very great an appropriate manner and reminded them of the magnificence of any men when compared to the great cause before the country. General S P Strickland, the returning hero of the Republican cause in our city, was next visited to which he responded with his usual enthusiasm and right heart ideas. Similar calls were made upon other citizens now of a high and influential character, but the particulars of which we have not learned.

Outrages upon our Citizens

It is deeply to be regretted that the feeling of an embittered disappointment at a political defeat could have led any one to contemplate or encourage at the peace of the State or the security of our citizens. Several of our citizens were, I believe attacked by ruffian hands, and struck down in our streets, and brained and maimed, while quietly going to their homes on Monday night and even yesterday similar offences were committed and for no cause but that of having been active in the support of the people in the political canvass. The immediate agitation in these matters is the subjects of party, while the authors who incited them to and encouraged and confirmed them should be held up to the scorn of the world.

The National Council of the Republican Senatorial Committee met at the Revere House on Saturday morning published a full and official confirmation on Kansas affairs developing very important incidents of the Lawrence, with elaborated attempt to obtain indictment against Governor Reeder, which would have placed him under bonds of $5000 each to appear at the next term of the District Court, there to be tried for treason, with the whole bar to a revelation which must open the eyes of the blind, if not the graves of the dead. The subpoenas to these delinquents is represented by telegraph, and though there may be slight inconvenience arising from the non-service of the subpoenas, there is no room to doubt but the executive will use all his power to crush the free state men now in arms to defend their property and lives in Kansas. For this purpose in addition to the regular forces at the disposal of the government requisitions are made on the Governors of Kentucky and Illinois for militia to be furnished to Gen Smith, whenever he deems it proper to call for them, to the extent of two regiments. Instructions are also issued to Gov Geary to enroll and organize the militia of the Territory that is the Missouri ruffians who have taken up the business of governing Kansas and these are to be mustered into the service of the United States as far as Gen Smith may need them.—*Boston Courier.*

Dr R Richard Clay demonstrator of anatomy in the American Medical College, Cincinnati will leave for Portland on Tuesday next, and return home the week will be glad to learn that he is to visit this city. No many, unless he be a consummate old fogie, as every thing, will deny that Dr Clayde one of the most eminently successful physicians in this country. There is as much difference between other advertising doctors and Dr Clay, as in listening to a novice performing on the piano, and then a Chevalier Gluck or a Thalberg.—*Journal.*

The above is as true as the Gospel. Dr Clay is really an educated and successful physician—and in his treatment of chronic complaints and diseases of the lungs and throat, he is far in advance of the age. His introduction of the process into the trades is truly astonishing. See advertisement.—[*Democrat.*

Dr Clay has returned to this city and taken rooms at the Bangor House.

LANGUAGE TRUTH RELIGION

(CONTINUED.)

From the want of a personal religious experience, which is the less likely to be attained when it is not a requisite of church membership, the common minds have, I think no true idea of the Holy Spirit in the Trinity. In an influence they think and know little of. There is no one of the spiritual contests which excited the old Puritan mind nor are the results borne up on any such wild wondrous wings of zeal and love as at this the Puritans were. They pass through a steady, business like code of religion they attend the church faithfully and far more punctually than do New Englanders, they go oftener to communion they ask God's blessing on their food and return thanks after it is eaten, their children are sometimes taught that they must not eat even an apple without saying a grace before it, and yet while you have told the whole story of faithful observance, and performance of outward duty there is a unanimous assent it, a lack of depth, a little real nearness to God little entering into the higher world of the christian soul but the rather a Roman Catholic style of submission to Evangelical doctrines.

There is a failure too in the appreciation of Christ as the living. They see him as he is in that doctrinal light, and yet take away their Pastor and they would scarcely feel that they could approach Him. They confess their sins to their Pastor and he confesses them to God and forgives them in God's stead. This is always done, hence approaching the Communion. How diff rent from the Evangelical mind of New England. What a call between him and Christ in all his wave. Shall he not speak for himself? Did not Christ die for him as much as for his minister? Nay I will further than this, shall he not search for himself his own views of doctrine as they come to justify to his mind from the Bible, even though learned Theology may bring instruments to bear without distracting from the holy wisdom of the ministry to teach the words of life, and to lead the wand ring to green pastures and living waters. But here you look in vain to the common people for any of that range and freedom of thought, that jump up of judgment for ones self and belong by the honest conviction which is so strongly characteristic of the New England christian, and which influence, under the great Dr Edwards to be almost raised to a simple country congregation.

I do not say that the decline of this has partly in the form of government under which they live and in the great central supervision of Church and State from which no appeal to the people or the bar can be had, it may be, that has ever been so much as to be visible in the popular will. Great on its genius and power, it is still on the decline and dying, under the effect of that king worm with the divine right to rule, and that they were born to serve, the above is surely not strange that to the spiritual director, whose office is rest it will sometimes doubt and love they should be tender and believing in the right of a pontifical mediation. The word is therefore law—a bon of disapproval a Bull from the Pope. How long will they be before the mind of the common German people, so simple and honest and true to

A REPUBLICAN LADY. On Thursday Mrs. Rebecca Kellam, wife of the late Daniel Kellam, of Hillsborough, N. H., died at her residence at the advanced age of 102 years 11 months and 21 days. She was a native of Billerica, Mass., where she was married 81 years ago. Her husband was drafted for the army soon after, and while encamped under Gen. Washington near Boston, Mrs. K. walked on foot from Billerica to the camp, carrying his supply of clothing. She retained her faculties and the use of her limbs till a few weeks since.

Those papers which impudently published the report of six or eight thousand people at the Democratic mass meeting in this city, and which wish to publish the truth, can cut the number down to 1,000, or at the very outside, 2000. Those which prefer to publish the biggest story without regard to the truth, are referred to the Boston Times, which beats the telegraph.—*Providence Journal.*

THE PRESIDENT.—It has been reported, that the President was coming to New Hampshire on a short visit to his friends at home. It is now said that he will go to the Virginia Springs.

The fourth annual exhibition of the South Kennebec Agricultural Society will be held in Gardiner, commencing on Tuesday, October 7th, and continuing three days.

The formation of a Fremont Electoral ticket in Virginia, complete in all but two Districts, is an indication that the Republican sentiment is growing. A similar movement has been made in Maryland, but the ticket is that State is not complete.—*N. Y. Times.*

AMBROTYPES.

Rooms---No. 1 Main Street.

THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and splendid saloon of Rooms in the city for taking the Ambrotype,

the genuine Ambrotype, (among other things that distinguish it from all other pictures) is taken upon fine plate glass, upon which is placed another glass, the two being united by an indestructible gum, thus securing it from dust, dampness, or liability to damage from any source. The pictures are not reversed, are free from that unpleasant irritation peculiar to the Daguerreotype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve, can have them copied by this process.

The public are respectfully invited to examine the pictures or our Rooms,

Entrance next door North of No. 1 Main Street.

N. B. The genuine Ambrotype can be obtained only at our Rooms.

ALL and singular the lands, tenements, hereditaments and premises, claims, rights and demands, mentioned and described in a certain Indenture of Mortgage, bearing date the twenty-third day of September, in the year of Our Lord One Thousand eight Hundred and Fifty-four, and made between John D. Baird, of Woodstock in the County of Carlton, and Province of New Brunswick, and one of Bridgewater in the County of Aroostook, and State of Maine, in the United States of America, Merchant, on the one part, and Bartlett Lingley, of Portland in the City and County of Saint John, and Province aforesaid, Merchant, of the other part, as follows, that is to say,

"All that certain lot of land situate in the Bridgewater Academy Grant, in the County of Aroostook and State of Maine aforesaid; being the same tract of Land heretofore conveyed to Samuel Frothingham, Jr., and Henry K. Hinton by Josiah Fogg and Samuel Fothingham, by their Deed, dated the fourteenth day of November A. D. 1838, and recorded in the Aroostook Registry of Deeds, Book 8 page 170, and by the said Samuel Frothingham and Henry K. Hinton, conveyed to George L. Drinkwater by deed, dated the first day of July, A. D. 1852, also a certain other tract of Land situated in said Bridgewater Academy Grant, being the same conveyed by said Fogg and Hinton to said Frothingham and Horton, by Deed, dated the fourteenth day of November, A. D. 1838, and recorded in the Aroostook Registry of Deeds, Book 8 page 170, and by the said Frothingham and Horton conveyed to said Drinkwater by Deed, dated the first day of July, A. D. 1852; the said two several tracts of Land having been purchased by Deed, bearing date the twenty-second day of July, in the Year of our Lord One thousand Eight Hundred and Fifty-two and recorded in the said Aroostook registry of Deeds, in Book 11, page 248, conveyed by the said George L. Drinkwater and Anna T. his wife, to the said John D. Baird and also all the right, title and interest of the said John D. Baird, of, in and to that certain lot sold of the half Township of land that the Commonwealth of Massachusetts gave the said United States of America, by its Agents, granted to the Trustees of Bridgewater Academy aforesaid, by a Deed, dated the fourth day of February, A. D. 1805, containing by estimation 11,520 acres be the same more or less, lying in the State of Maine aforesaid, and known as the Bridgewater Grant, the share of the said John D. Baird being twenty-eight thirtieths of all the income and proceeds of the Grant yet unsold, and like proportion of all debts and demands due and owing to the proprietors of said holders for such lots as have been already sold.

"Together with all and singular the buildings, Fences and improvements on the said several said and respective Lots, Tracts or parcels of Land or any part or parcel thereof standing or being, and all and singular the ways, watercourses, easements, rights, liberties, privileges, and appurtenances whatsoever to the said several and respective lots of Land, hereditaments and premises hereinbefore mentioned and conveyed or intended so to be, in any wise belonging or appertaining. And the reversion and reversions, remainder and remainders, rents, issues and profits thereof. And also all the estate, right, title, interest, property, possession, claim and demand whatsoever of him, the said John D. Baird, both at Law and in Equity or, in to or out of the same and every part and parcel thereof."

Which said Indenture of Mortgage is recorded in the Aroostook Registry of Deeds, in page 14, page 149, and will be made in return to Mortgagee, and the said lots, pieces, parcels of ground, tenements, and hereditaments, and all and singular other the premises with the appurtenances comprised and covered thereby, and all principal and interest money due and to grow due on said indenture of Mortgage, were by Indenture bearing date the twenty-sixth day of January in the year of our Lord One thousand eight hundred and fifty-five, sold, assigned, and conveyed by the said Bartlett Lingley to Hezekiah Perkins and William James Perkins, of Liverpool, in the County of Lancaster, England, Merchants, and Copartners, trading there by and under the name, style and firm of "*Perkins Brothers & Co.*" as will reference to the said Indenture of Assignment, recorded in the Aroostook Registry of Deeds, Book 14, page 190, will appear.

The sale of this Property is directed to be made by the Assignees of the said Mortgage, that is to say, D. Baird, to publish Sale to open and satisfy to them the amount of principal and interest money secured by such Mortgage.

DANCING!

HALL open my Hall, in Exchange Block, on WEDNESDAY, Sept 17th, at 2 o'clock P. M. for Juveniles and Ladies.

Instruction will be given in 24 lessons sufficient for the easy execution of modern Dances usually composed for parlor and school recreation.

I have this season visited many of our larger cities for the purpose of acquiring such information, as may be used for the furtherance of my pupils. No material change has been made in the Dances taught by me last season; some new ones have been added, but of the same quiet character, and gentle, gliding, graceful movement, which differs so widely from the vulgar, "hopping" gymnastic extravagances of "stage style."

Public will receive instruction in such Dances as are now in general favor, as Polka, Emerald, Waltzes, Polka Redowa, Scatcheottische, Redowa Waltz, Polka Mazourka, Cotillon, Varsovienne Quadrilles, &c., &c. I have in addition more new collection of dances most, which was compiled for and adapted to the above classes, selected by Prof. G. W. Allen, of New York.

Terms—Afternoon Classes, $4.00

Evening Classes, $6.00.

Glass Pictures

Rooms, No. 2 1-2 Strickland's Block, and No. 19 Main Street.

The subscriber informs all those interested that he is prepared to make Pictures on Glass, being in many respects preferable to Daguerreotypes.—These mimo metallic reflecting rooms on Glass Pictures which make Daguerreotypes so hard to be seen in some lights.

There are many ways by which Glass Pictures may be put up. The most effectual is to have them covered with white transparent varnish, entirely excluding them from air or liability to fade. This is the only way that colors can be shown on Glass Pictures; and by this method they can be colored much better than Daguerreotypes.

Daguerreotypes copied on Glass or Plate at all times.

A general invitation is given to all interested to call and examine specimens, at Rooms, No. 2 1-2 Strickland's Block, Bangor.

N. B. Pictures of Children taken in about one half the time which is occupied by the Daguerreotype process.

Re-oller—This is the only way Pictures can be put up in colors by the Glass process.

DR. R. RICHARD CLAY,

Demonstrator of Anatomy in the American Medical College, Cincinnati, and formerly editor of the Journal of Health and Medical Rambler—at the earnest solicitation of many of his old friends and patients, will

RETURN TO BANGOR ON

Tuesday, Sept. 9th, 1856,

And can be consulted at Room No. 46, next door to the Ladies' Parlor, Davinel House, for a few days, if business requires it, until the departure for the Buckeye State.

DR. CLAY devotes his attention to the diagnosis and treatment of diseases of the respiratory and circulating organs, and the medical and surgical treatment of uterine complaints. His method of operating upon the throat is far superior to that of any other man in New England, and his success truly astonishing. Hundreds can testify to the truth of this statement. There is not one physician in twenty who can perform the operation successfully—it is an operation which requires the minutest knowledge of the anatomical structure of the parts, and the utmost dexterity in performing it.

sept1 tf

Consumption not Fatal, if Properly Treated.

To the Sick and Afflicted!

DR. & MRS. GREGORIE LAMONT,

THE celebrated Physician for diseases of the Throat, Lungs, Heart and all diseases of the Blood, from 378 Broadway, N. Y., late of London, member of the reformed Medical College, New York, and the first who advocated inhalations for diseases of the Lungs, treat all diseases of the Chest, by the inhalation of Hot Medical Vapors with a success unknown to the physicians of all countries, invite the attention of the sick and afflicted, laboring under the various forms of disease, such as Coughs, Cleerated or Tuberculous Lungs, spitting of blood, pain in the chest, sides and back, sore throat, bleeding lungs, chronic catarrh, night sweats, nervous complaints, debilitation, dyspepsia of the heart, pain, liver complaint, chronic diarrhœa, and all female complaints such as prolapsus uteri or falling of the womb, and all uterine complaints, such as cancers, tumors, enlargements, suppression of the menses, excessive menstruation, Leucorrhœa or whites, scrofulous affections, spinal deformities, grave, and poisonous innoculations, and all the diseases of the blood.

Mrs. Dr. Lamont is the only lady gifted with the power of telling a disease at sight, by looking into the eye, without the patient saying a word to her. She can tell them how they are afflicted in every particular, and prescribe for their immediate relief and permanent cure of their complaints. They can be consulted for a short time, free of charge, at the

HATCH HOUSE, Bangor, Room No. 3,

and those who are not able to call, by sending a card or address they will call and give advice and as their stay will be short, in this place, immediate attention to this card will be required, to ensure success.

Their terms for medicine are very moderate in all cases, and the invalid may depend on finding speedy relief by calling immediately on Dr. and Mrs. Lamont, as their stay will be short in this place.

Please show this to your friends. It might be the means of saving a valuable life.

Cheap & Convenient Building!

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing new and convenient rooms for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, and that he is now able to supply to those who build, the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimension and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building to very much lessened by having these articles made separately, so that the carpenter has simply to put them in their places in the structure.

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work of a uniform excellent quality.

Any one interested, can examine specimens of the work at the factory, near the Bass Plains, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and as well organized is the business that to make should now think of building in the old and slow and imperfect methods.

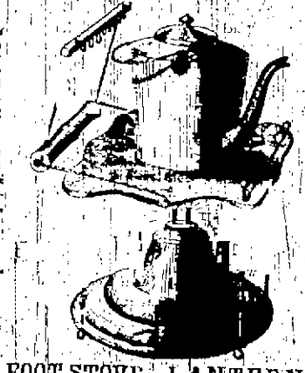
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN, —AND— NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, is of great advantage in keeping drinks or medicines warm, besides giving the light desired, and for cooking in small quantities. For making tea &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a tea-kettle of hot water in the same length of time.

In fact, the various purposes to which this neat apparatus can be put are to be readily conjectured by everyone. No further description is required as no one can misunderstand its general utility, to say anything more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.
